

PatchAmp's Crossfire, a convenient, modular cross connect box, integrates tape, video, audio, and production control connections to the core system, using mult connectors and cables.

## Let PatchAmp's **Crossfire** Simplify Your Work.

PatchAmp's Crossfire, a convenient, modular cross connect box, integrates tape, video, audio, and production control connections to the core system, using mult connectors and cables.

With PatchAmp's Crossfire cross connect box, you can wipe out messy wiring. Who wants to deal with a lot of wires on the floor if it isn't necessary? The Crossfire reduces the work you would put into sorting wires and making multiple audio and video connections. It combines audio and video wires into one multipin quick connection, allowing you to make eighteen connections in one simple step.

The Crossfire combines audio and video wires into one multipin quick connection, allowing you to make eighteen connections in one simple step.

You can worry less about making mistakes, because the Crossfire makes it easy for you. With simple multipin connections, you don't need to fuss over the tedium of multiple wires and connectors. The Crossfire works along side of PatchAmp's VTR BOPs.

The Crossfire will make your whole system more modular and flexible, with no need for relacing wires. It is especially suitable for flypacks, mobile units, or growing studios. Let PatchAmp's Crossfire make things simpler for you.
