

Outpost Digital

Project

Outpost Digital expansion and machine room relocation

Application

Designing and installing a 3G infrastructure

[Outpost Digital](#), a division of Radical Media, recently expanded their Hudson Street facilities using [PatchAmp's system integration services](#). PatchAmp was chosen because of their more than 20 years of system integration experience in the New York Metropolitan area. The facilities infrastructure was totally re-wired to accommodate 3G HD/SDI, 10Gig Fiber, Cat-6 Ethernet cabling, voice and data. The new central machine room feeds 35 outlying post-production suites including color correction, editing, digital effects and remastering.

Outpost Digital provides real time multi-standard, multi-resolution, platform agnostic, offline editorial plus streamlined online services including color correction and visual fx. Outpost Digital is truly on the cutting edge of post production technology and is located in both New York City and Santa Monica.
